GLOSSIER!

Out with old, in with the bold. Is gloss the new gold? Yes, and it's better than ever. Sauntering in with a 70's retro suave, gloss with its dapper disposition pulls out all the stops. You wanted a statement? Gloss gives you a show-stopper instead, stealing the spotlight and our hearts

"SHADOW" GREEN COATED FABRIC
ARMCHAIR designed by Gaetano Pesce
for Meritalia, ₹4,44,041

Gloss and green is quite the power duo. Be it fearless neons or a serene sage, its glossed-up glory is one for the books. Just like how Charlap Hyman & Herrero coat the walls and lacquer cabinets in a voracious verdant wash in the study of a residence at Miami Beach

Red Alert: No glossy rendezvous is complete without this colour's audacious charisma. Its fiery mood takes over a neighbourhood bar in Delhi aptly called, The Red. Designed in a collaboration between Studio Organon and creative agency The Brewhouse, it embraces the liberation of gloss and throws all caution to the wind

Our obsession with lustre spins into a towering tornado at the Dr. Ramdas M Pai Convention Hall and Food Court of Manipal Academy of Higher Education in Bengaluru designed by The Purple Ink Studio. Playful and arresting, the deep hues of orange draw you in while the curved canvas catches the sunlight (or sunset), just right!
